4Q 2024 vs 4Q 2023

For the current financial quarter under review, the Group achieved a revenue of RM986.68 million, marking a significant increase of RM459.26 million or 87.08% as compared to RM527.42 million in the preceding year corresponding quarter. The increased revenue for the current quarter was mainly driven by the consolidation of revenue contributions from Ajiya Berhad ("Ajiya") and Signature International Berhad ("SIB") along with improvements across all segments, particularly in the construction and property development segments.

The Building Materials division remained stable in 4Q2024, maintaining its business momentum despite a more moderated growth trajectory. Market conditions continued to support steady demand, particularly in key product segments such as AAC, precast concrete, and drymix solutions. While overall growth was minimal, the division remained resilient, leveraging its strong market position and operational efficiencies to sustain performance.

The Construction division maintained its steady performance in 4Q2024, recording a revenue increase of RM53.68 million compared to the corresponding quarter of the previous year, primarily driven by improved project efficiency. Meanwhile, the Property Development division continued to contribute positively, with strong sales momentum from ongoing projects such as Quaver, Ayanna, Solarvest, Crown, Avantro, and Andalan.

In line with the significant revenue growth, the Group's gross profit ("GP") increased by RM130.17 million, rising from RM47.83 million in the corresponding quarter of 2023 to RM178.00 million in the current quarter of 2024. The gross profit margin improved to 18.04%, up from 9.07% in the same period last year, largely driven by strong contributions from both Ajiya and SIB, which significantly bolstered the Group's overall gross margin.

Administrative expenses rose by RM83.18 million, totalling RM123.38 million, largely due to the consolidation impact of Ajiya and SIB. Despite this increase, operating profit improved significantly, rising to RM123.62 million from RM95.26 million, driven by the factors mentioned above.

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS (CONT'D)**B1. Review of performance (Cont'd)****Comparison with previous year corresponding period (Cont'd)****4Q 2024 vs 4Q 2023 (Cont'd)**

The Group achieved a record profitability of RM106.57 million in profit before tax ("PBT"), primarily driven by:

- Increased gross profit margin from the newly acquired subsidiaries, as above;
- Higher revenue recognition from on-going development projects, as above
- Stronger contributions from the AAC and precast concrete segments;
- Fair value gain on other investments of RM13.47 million; and
- Fair value gain on investment properties of RM17.89 million.

However, this was partially offset by,

- Increased finance cost resulting from higher borrowings levels and elevated interest rates;
- Lower share of results from associates following the acquisition of Ajiya and SIB, which have now become subsidiaries of the Group;
- Loss on disposal of other investments of RM6.58 million; and
- Lower profit contribution from Property division mainly due to higher administrative expenses and marketing cost.

FY24 vs FY23

For the twelve months ended 31 December 2024 (FY24), the Group reported higher revenue of RM3.24 billion, reflecting a notable increase of RM1.19 billion or 57.67% compared to the corresponding year. This strong growth was mainly driven by the consolidation of Ajiya and SIB, coupled with solid performances from the building materials and property development divisions.

Similarly, the Group recorded a profit before tax (PBT) of RM273.76 million for FY24, mainly attributed to:

- Higher profit margins from newly acquired subsidiaries, as above;
- Gain of RM20.17 million from the remeasurement of equity investments;
- Fair value gain on investment properties of RM17.89 million;
- Fair value gain on other investments of RM21.14 million; and
- Gain on disposal of other investments of RM11.76 million.

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS (CONT'D)**B2. Comparison with immediate preceding quarter's results****CURRENT QUARTER vs. PRECEDING QUARTER**

	Unaudited		
	Individual quarter		
	31 December 2024	30 September 2024	Changes
	RM'000	RM'000	%
Revenue	986,678	912,643	8%
Gross Profit	178,002	165,211	8%
Operating Profit	123,619	93,863	32%

Profit After Tax	83,519	54,416	53%
Profit Attributable to Ordinary Equity Holders of the Parent	34,592	27,668	25%

For the quarter under review, the Group posted a revenue of RM986.68 million, up from RM912.64 million in the preceding quarter, representing an increase of RM74.04 million or 8.11%. The higher revenue mainly resulted from higher revenue contribution achieved for SIB and the construction segment.

Compared to the preceding quarter, revenue from the Building Materials segment declined due to lower sales volume. However, the division remained resilient, achieving higher profitability supported by improved margin contributions. While growth was modest, the division remained steadfast in maintaining its business momentum, demonstrating adaptability in a dynamic market environment.

In the Property Development segment, sales saw a commendable increase, driven by stronger demand for ongoing projects. However, the segment recorded a negative contribution, primarily due to higher administrative and marketing expenses incurred for newly launched projects during the financial year. Meanwhile, the Construction segment recorded strong revenue growth, with overall performance remaining stable. Improved project efficiency continued to support steady contributions to the Group's financial performance.

The Group reported a PBT of RM106.57 million, an increase of RM33.31 million from RM73.26 million in the preceding quarter. This was mainly due to fair value gain on investment properties and other investments coupled with the gain on disposal of other investments.

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS (CONT'D)**B3. Prospects**

The ever-changing economic landscape and evolving monetary policies, coupled with unpredictable tariff and interest rate uncertainties, pose significant challenges to global economic growth. The recently concluded US Presidential election signals a shift in political dynamics, potentially influencing global economic policies, trade relations, and market sentiments. These developments could affect international trade, finance, and geopolitical strategies, presenting both opportunities and challenges for businesses operating in diverse markets.

Malaysia's economy grew 5.1% in 2024 due to continued expansion in domestic demand and a rebound in exports. Bank Negara Malaysia ("BNM") continues to expect growth to remain resilient in 2025, supported by robust investment activity, strong household spending and continued expansion in exports. The growth outlook remains subject to downside risks, considering external vulnerabilities such as slower growth in advanced economies, uneven recovery in global manufacturing and ongoing geopolitical tensions. Nevertheless, BNM also sees upside risks to growth such as a greater spill-over from the tech upcycle, higher tourism activities and faster implementation of projects.

Looking ahead, our Building Materials division remains focused on maintaining operational efficiency while seizing opportunities to expand market share. By leveraging our expertise across industries, we are committed to driving strategic growth. As we explore new domestic and regional orders, particularly in key markets such as Singapore and other regional hubs, we aim to align with market demands and broaden our market reach. While the removal of subsidies and the increase in minimum wages may impact costs, we are confident that these factors will have minimal effect on our operations, thanks to our strong cost-conscious approach and ongoing focus on efficiency.

Ajiya, which became a subsidiary of the Group earlier this year, will continue to focus on optimizing operational workflows, improving resource utilization, reducing waste, and maintaining a lean operational structure. Through this strategic alliance with the Group's extensive expertise and resources, as well as synergies with our construction and property divisions, Ajiya poised to enhance their market presence, expand the product offerings and continue evolving to unlock growth opportunities.

The construction sector anticipates a steady recovery in contract flows, continued to be driven by planned in-house property development projects. As of 31 December 2024, the segment maintained a strong outstanding order book of RM2.0 billion. Future replenishment will hinge on the rollout of government infrastructure initiatives and private sector projects. To sustain its growth momentum, the segment remains proactive in bidding for new contracts, ensuring a continuous pipeline of projects while leveraging its expertise to secure strategic opportunities.

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS (CONT'D)**B3. Prospects (Cont'd)**

In the property development segment, as of 31 December 2024, the Division has total unbilled sales of RM1.6 billion mainly from its on-going property development projects namely Quaver Residence, Ayanna Resort Residences, Avantro Residences, Solarvest Suites, The Crown and Andalan.

The commercial vehicle market is expected to face ongoing challenges. However, the Group remains cautiously optimistic, as demand for light and heavy trucks, as well as prime movers, continues to be driven by the logistics and transportation sectors. To strengthen this segment, the Group is actively expanding its sales and marketing efforts for the Cergas Van, which is well-positioned to benefit from the anticipated growth in the tourism industry. Additionally, in line with the Malaysian Government's push for green energy adoption, the Group is exploring opportunities in the electric commercial vehicle segment, aiming to align with sustainability trends and emerging market demands.

The Group completed the acquisition of an additional stake in SIB, a group of companies specializing in kitchen and wardrobe systems, as well as interior fit-out works in the second quarter of 2024. The consolidation of SIB has significantly enhanced the Group's financial performance, particularly by improving overall profit margins. On 1 November 2024, SHL has acquired the "Crownlavin" brand. With Crownlavin's strong reputation, expertise in home furnishings, and distinct style, it is well-positioned to integrate its product range and resources seamlessly into Signature's offerings. This acquisition will not only boost Signature's operational capacity but also enable Signature to enhance customer experience by introducing a more comprehensive selection of contemporary and classic home furniture solutions.

As of 31 December 2024, SIB's order book remained strong at RM909 million for kitchen and wardrobe systems and RM440 million for interior fit-out works. While SIB anticipates challenges ahead, including a declining economic outlook, persistent geopolitical tensions, and impending regulatory changes that may impact operational costs. Nevertheless, with its solid market position and strategic initiatives, SIB remains resilient and expected to continue contributing positively to the Group's financial performance in the coming years.

With contributions from the consolidation of new subsidiaries and resilient performance across all divisions, the Group is poised to sustain steady growth in the coming quarters. This momentum will further strengthen our financial position and solidify our market presence, enabling us to navigate challenges while capitalizing on emerging opportunities.
